

Dani's Pedigree Information

Oh, Dani Girl

Owned by Laura (Lu) Schmieder of LuLu Ridge Pups, Rapid City, South Dakota

Dani's story is deeply personal. Lu purchased her in 2017 from a family friend's litter after the loss of her beloved chocolate Lab. Having known Dani's parents and grandparents for years, Lu had witnessed the intelligence, temperament, and overall quality these dogs consistently passed down. When the opportunity came to welcome Dani, she knew without a doubt that this was the right dog for her.

Just one year later, in 2018, Lu was in a serious car accident. Dani became her constant companion during a very long, multi-year recovery that followed. Always by her side, Dani proved to be incredibly intuitive – using her eyes to communicate, offering comfort, and often anticipating Lu's needs before she spoke them. She traveled across the country with Lu to appointments with specialists, and during that time was public-access trained so she could provide support wherever they went.

Dani is equal parts playful and cuddly, with a gentle personality that makes her wonderful with children, other dogs, and families alike. Her pups have inherited her intelligence, intuition, and versatility – thriving as beloved family pets, skilled hunters, and dependable service dogs.

While Dani **is not currently AKC registered** due to missing paperwork from her grandfather, she has been DNA tested (100% purebred), microchipped, and OFA tested for hips and elbows.

Lu is actively working to track down the breeder for her grandfather's papers in hopes of completing her registration.
